AUREL VEHI

Data Scientist | Applied Economics | Modeling & Decision Support
07 53 76 86 87 • aurelvehi@outlook.fr • **Portfolio** • **GitHub** • Mobility: France

PROFILE

Data Scientist and Economic Analyst trained in econometrics, statistical modeling, and data science. Background built through research, rigorous analysis, and the development of analytical solutions for economic, environmental, energy, and transport-related issues. Strong command of the full analytical chain, from data collection and processing to modeling, indicator production, forecasting, and reporting. Rigor, clarity, and results directly actionable for decision-making.

KEY SKILLS

- **Analysis & Modeling** - EDA, applied statistics, econometrics, regression, time series, panel data, forecasting, nowcasting, supervised machine learning, applied deep learning.
- **Programming & Data** - Python, R, Stata, SQL, PostgreSQL, Julia, scikit-learn, TensorFlow, PyTorch, Git.
- **Pipelines & Deployment** - structuring and processing multi-source data, analytical APIs, reproducibility, ML solution deployment, Docker.
- **Visualization & Reporting** - Power BI, Tableau, web applications, decision-oriented indicators, reporting, data storytelling, communication for technical and non-technical audiences.

PROFESSIONAL EXPERIENCE

Research Assistant - Data Analysis & Economic Studies (Internship) Nice/Monaco
ECOSEAS Laboratory - Centre Scientifique de Monaco Mar 2025 - Oct 2025

- Collected, cleaned, and harmonized large-scale economic and environmental data.
- Conducted exploratory, statistical, and econometric analyses on applied research topics.
- Built indicators and contributed to scientific deliverables on environmental and economic issues.

Project Officer - Socio-Economic & Environmental Analysis (Contract) Monaco
Centre Scientifique de Monaco Oct 2024 - Jan 2025

- Explored and analyzed environmental and socio-economic data.
- Provided methodological support to multidisciplinary research teams.
- Interpreted statistical results and contributed to analytical reports.

Accounting & Data Analysis Intern Nice, France
Family Sphère Jul 2023 - Sept 2023

- Designed financial monitoring dashboards, performed budget analysis, and automated reporting using Excel and VBA.

PROJECTS

- **U.S. GDP Growth Nowcasting** - Nowcasting U.S. GDP growth from continuous data flows.
- **Fear & Greed Index Estimator** - Reconstructed a market sentiment indicator from public data, with data collection pipeline, normalization, signal aggregation, calibration, and API exposure.
- **Environmental Attention Index for PTAs** - Built an environmental attention index from trade agreement metadata, combining data processing, scoring, and analytical reporting.
- **Research Papers Recommendation System** - Developed a scientific paper recommendation system using NLP, embeddings, similarity logic, and a results delivery interface.

EDUCATION

Master's in Economic Data Expertise and Analysis - High Honors 2023 – 2025
EUR ELMI - Université Côte d'Azur

Bachelor's in Economics and Management 2020 – 2023
Université Côte d'Azur

LANGUAGES

English - B2, French - Native
